

DispenseMaster™ 4

DM4 – Color On Demand

- ▶ DISPENSE quarts, gallons or five gallon containers
*Based on configuration
- ▶ MIX accurate, consistent colors - first time, every time, on time.
- ▶ CONTROL ink inventory by mixing only the quantities you need.
- ▶ REDUCE press downtime by delivering accurate colors to the production floor.
- ▶ CREATE an unlimited color palette with customized formulas to meet production specifications and cost requirements.

DM4 – Operational Features

- ▶ Large enclosed stainless steel work area.
- ▶ Quick and easy component replenishment.
- ▶ High quality industrial PLC system control.
- ▶ Seamlessly integrated with Wilflex IMS color matching software
- ▶ Contributes to a clean and safe working environment.

DM4 – Specifications

- ▶ Price includes computer (CPU), monitor, keyboard, mouse, scale, stainless steel work area.
- ▶ Warranty: One year on parts. FOB factory.
- ▶ Power Requirements: 110 AC 15 Amps 50/60Hz.
- ▶ Air Requirements: 100PSI (minimum).
- ▶ Optional: Draft doors and automatic table adjust.

Increase productivity Improve consistency

- ▶ DM4 is up to three times faster than first shift manual mixers.
- ▶ Mix and dispense up to seven times faster than second shift manual mixers when using a DM4.
- ▶ While ink is dispensing, someone can be stirring or completing other tasks.

Reduce inventory Reduce waste Reduce downtime

- ▶ Using a DM4 could cut your inventory in half.
- ▶ Mix ink for the day's job only.
- ▶ Inventory only 15 mixing colors.
- ▶ DM4 is clean and efficient as colors are dispensed directly into the bucket.
- ▶ DM4 can produce consistent matches with no downtime for adjusting color .
