

Cecil Chappelow, Ph.D.

**Vice President
Innovation and Sustainability
Chief Innovation Officer**

Cecil Chappelow, Ph.D., is vice president, innovation and sustainability, and chief innovation officer for PolyOne Corporation, the world's premier provider of specialty polymer materials, services and solutions. In line with the Specialization pillar of the company's strategic priorities, he is responsible for driving greater focus of PolyOne's offerings, technology development, global technical organization, and the companywide commitment to sustainability.

Dr. Chappelow also serves as president and CEO of PolyOne subsidiary Polymer Diagnostics, Inc. Prior to joining PolyOne, he served in several capacities for Air Products and Chemicals, Inc., including manager-, director-, and executive-level positions. Most recently, he was the company's vice president of gases and equipment technology. Before that, Dr. Chappelow worked for Pfizer, Inc. in their Mineral, Pigments and Metals Division.

Dr. Chappelow earned a bachelor's degree in chemical engineering from the University of Missouri at Columbia, a master's of business administration from Lehigh University and a Ph.D. in chemical engineering from the University of California at Berkley. He is a board member of the Ohio Polymer Strategy Council, and a member of the American Institute of Chemical Engineers.
