Vibration Damping

Experience the difference in the latest in vibration damping technology from PolyOne GLS Thermoplastic Elastomers

Reduce Vibration & Impact

With PolyOne GLS Thermoplastic Elastomers Versaflex™ VDT you can now add value to your products in ways your customers can really feel. This vibration damping technology can reduce the affects of impact and vibration, improving your customer’s experience and increasing your top line profits.

You can now meet varying physical and performance requirements in a broad range of applications, such as:

- Personal Protection
- Firearms
- Electronics
- Archery
- Automotive
- Healthcare
