GLOBAL REACH
With manufacturing and support services located on four continents, PolyOne offers a comprehensive solution set—from color matching to design assistance to custom polymer formulations—for a wide array of applications in global markets. Our reach and expertise allow us to work with you to deliver solutions that foster your success locally and globally.

ENABLING INNOVATION
We are developing solutions for advanced driver assist systems (ADAS), lightweighting, and electrification, as well as ways to help you incorporate more sustainable materials. Drawing upon a deep knowledge of polymers, formulations and polymer processing, we provide you with the innovative solutions you need to compete and win.

DELIVERING MEASURABLE VALUE
By understanding what you value and supplying end-to-end solutions, we help you leverage trends and meet consumer demands to compete more effectively. Our solutions and initiatives have a single goal, to help you win.

• Faster approvals - Our full portfolio of materials with automotive direct and indirect specifications and approvals accelerate time to market.
• Design support - From part design to mold flow analysis, our design team has the know-how and the tools to work with part designers to create solutions that perform beyond expectations.
• Greater productivity - Our highly experienced application development teams help you with tool design recommendations, processing assistance, and troubleshooting to boost your productivity.

ENABLING SUSTAINABILITY

Our materials, colorants and additives can help you reach these sustainability goals and more.

UNDERHOOD

Air Management
Fuel Systems
Filters/Cleaners
Engine/Powertrain
Fans & Shroud
Engine & Cam Covers
Fluid Reservoirs
Sealing Systems
Wire & Cable and Connectors
Battery Systems & Supports
Sensors/Controls/Actuators
Turbo/Superchargers
Control Modules/Valves
Gears & Housing
HVAC Systems

BODY & STRUCTURAL

Front & Rear End Modules
Door Modules
Fender Liners
Underbody Shielding
Energy Management
Carriers/Boards
Radiator Supports
Wiper Supports
Roof Systems
Frames
Door Intrusion Systems
Sealing Systems

INTERIOR

Instrument Panels
Door Panels
Hard trim
Pillars
Steering Wheels
Wheel Covers
Rear Door Handles
Fuel Doors
Cowl Panel

EXTERIOR

ADAS Housing
Exterior Trim
Mirror Housings
Sealing Systems
Lighting
LED Lighting
Wheel Covers
Running Boards/Step Bars
Roof Rails
Door Handles
Fuel Doors
Cowl Panel

MORE THAN MATERIALS

From ADAS to HVAC systems, instrument panels to interior trim, under-the-hood to exterior trim, PolyOne can help you develop and build nearly any part you create.

Solutions Portfolio

OnColor™ Colorant & Additive Masterbatches
Edgetek™ Performance Thermoplastics
Somercar™ EMI/RFI Shielding Formulations
Nynas® Targamid® Monos
Maxam® Polyolefins
GLS® Thermoplastic Elastomers
Geo-™ Vinyl Materials & Plastisols
Geo-™ VEX Ester Vinyl Powder Formulations
PolyOne Distribution
ProTec Services (Onflex Manufacturing)
Composi-Tec Long Fiber Composites
Polyester Thermoplastic Composite Tapes
OnForce™ Long Fiber Composites

PolyOne has developed its material solutions portfolio to help you meet challenges and reach your goals. You can rely on us for:

• Materials that meet over 500 automotive polymer OEM specifications
• More than 16,000 color and additive approvals
• Polymer distribution for hundreds of automotive-specified polymer from the industry’s leading suppliers

PolyOne offers a broad array of polymers with unique thermally conductive and electrically conductive properties. In addition, our low odor Maxam LD provides in-mold-molded interior air quality (VIAQ) standards.

PolyOne’s unique materials, colorants and additives help you to improve performance, aesthetics, and durability. Our OnForce™ low VOC/FOG TPEs for interiors keep you on top of VIAQ standards.
