| (with hours of operation)            |        | accident).  |
|                                      |        |   |

# Section 2. Hazards identification

This mixture has not been evaluated as a whole. Information provided on the health effects of this product is based on individual components. All ingredients are bound and potential for hazardous exposure as shipped is minimal. However, some vapors may be released upon heating and the end-user (fabricator) must take the necessary precautions (mechanical ventilation, respiratory protection, etc.) to protect employees from exposure. After handling, always wash hands thoroughly with soap and water.

| OSHA/HCS status                            | : | While this material is not considered hazardous by the OSHA Hazard<br>Communication Standard (29 CFR 1910.1200), this SDS contains<br>valuable information critical to the safe handling and proper use of the<br>product. This SDS should be retained and available for employees and<br>other users of this product. |
|--|---|--|
| Classification of the substance or mixture | : | Not classified.  |
| GHS label elements                         |   |  |
| Signal word                                | : | No signal word.  |
|  |   | 1/17   |

| Response                         | : | Not applicable. |
| Storage                          | : | Not applicable. |
| Disposal                         | : | Not applicable. |
| Supplemental label elements      | : | None known.     |
| Hazards not otherwise classified | : | None known.     |
|                                  |   | Not available.  |

# Section 3. Composition/information on ingredients

:

| Substance/mixture             | : | Mixture    |
|-------------------------------|---|------------|
| Chemical name                 | : | Mixture    |
| Other means of identification | : | CC10318029 |

CAS number/other identifiers

| Ingredient name                                   | %       | CAS number     |
|---|---------|----------------|
| Phenol, 4,4'-(1-methylethylidene)bis[2,6-dibromo- | 10 - 25 | Not available. |
|   |         |                |
|   |         |                |
| Antimony trioxide                                 | 5 - 10  | 1309-64-4      |
|   |         |                |
|   |         |                |
| Titanium dioxide                                  | 3 - 5   | 13463-67-7     |
|   |         |                |
|   |         |                |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

# Section 4. First aid measures

Description of necessary first aid measures

# PRE-COLOR WHITE ABS

| Version Number 1.0       | Page 3 of 17          |
|--------------------------|-----------------------|
| Revision Date 12/09/2019 | Print Date 12/10/2019 |

| Eye contact  | : | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.   |
|--------------|---|---|
| Inhalation   | : | Remove victim to fresh air and keep at rest in a position comfortable<br>for breathing. Get medical attention if symptoms occur. In case of<br>inhalation of decomposition products in a fire, symptoms may be<br>delayed. The exposed person may need to be kept under medical<br>surveillance for 48 hours.   |
| Skin contact | : | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.  |
| Ingestion    | : | Wash out mouth with water. Remove victim to fresh air and keep at<br>rest in a position comfortable for breathing. If material has been<br>swallowed and the exposed person is conscious, give small quantities<br>of water to drink. Do not induce vomiting unless directed to do so by<br>medical personnel. Get medical attention if symptoms occur. |

#### Most important symptoms/effects, acute and delayed

| Potential acute health effects   |   |   |  |
|--|---|---|--|
| Eye contact  | : | No known significant effects or critical hazards.   |  |
| Inhalation   | : | No known significant effects or critical hazards.   |  |
| Skin contact   | : | No known significant effects or critical hazards.   |  |
| Ingestion  | : | No known significant effects or critical hazards.   |  |
| Over-exposure signs/symptoms   |   |   |  |
| Eye contact  | : | No specific data.   |  |
| Inhalation   | : | No specific data.   |  |
| Skin contact   | : | No specific data.   |  |
| Ingestion  | : | No specific data.   |  |
| Indication of immediate medical attention and special treatment needed, if necessary |   |   |  |
| Notes to physician   | : | In case of inhalation of decomposition products in a fire, symptoms<br>may be delayed. The exposed person may need to be kept under<br>medical surveillance for 48 hours. |  |
| Specific treatments  | : | No specific treatment.  |  |
| Protection of first-aiders   | : | No action shall be taken involving any personal risk or without suitable training.  |  |

See toxicological information (Section 11)

Version Number 1.0 Revision Date 12/09/2019 Page 4 of 17 Print Date 12/10/2019

# **Section 5. Firefighting measures**

#### **Extinguishing media**

| Suitable extinguishing media<br>Unsuitable extinguishing media | : | In case of fire, use water spray (fog), foam, dry chemical or $CO_2$ .<br>None known.   |
|--|---|---|
| Specific hazards arising from the chemical                     | : | No specific fire or explosion hazard.   |
| Hazardous thermal<br>decomposition products                    | : | Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>nitrogen oxides<br>halogenated compounds<br>metal oxide/oxides                                |
| Special protective actions for fire-<br>fighters               | : | Promptly isolate the scene by removing all persons from the vicinity<br>of the incident if there is a fire. No action shall be taken involving any<br>personal risk or without suitable training. |
| Special protective equipment for fire-fighters                 | : | Fire-fighters should wear appropriate protective equipment and self-<br>contained breathing apparatus (SCBA) with a full face-piece operated<br>in positive pressure mode.                        |

# Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

| For non-emergency personnel<br>For emergency responders | :     | No action shall be taken involving any personal risk or without<br>suitable training. Evacuate surrounding areas. Keep unnecessary and<br>unprotected personnel from entering. Do not touch or walk through<br>spilled material. Put on appropriate personal protective equipment.<br>If specialized clothing is required to deal with the spillage, take note<br>of any information in Section 8 on suitable and unsuitable materials.<br>See also the information in "For non-emergency personnel". |
|---|-------|---|
| Environmental precautions                               | :     | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).   |
| Methods and materials for containme                     | ent a | nd cleaning up  |

| Small spill | : | Move containers from spill area. Vacuum or sweep up material and |
|-------------|---|--|
|             |   | place in a designated, labeled waste container. Dispose of via a |

me

## **PRE-COLOR WHITE ABS**

Large spill

licensed waste disposal contractor.

Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

# Section 7. Handling and storage

#### Precautions for safe handling

| Protective measures<br>Advice on general occupational<br>hygiene | : | Put on appropriate personal protective equipment (see Section 8).<br>Eating, drinking and smoking should be prohibited in areas where this<br>material is handled, stored and processed. Workers should wash hands<br>and face before eating, drinking and smoking. Remove contaminated<br>clothing and protective equipment before entering eating areas. See<br>also Section 8 for additional information on hygiene measures.   |
|--|---|--|
| Conditions for safe storage,<br>including any incompatibilities  | : | Store in accordance with local regulations. Store in original container<br>protected from direct sunlight in a dry, cool and well-ventilated area,<br>away from incompatible materials (see Section 10) and food and<br>drink. Keep container tightly closed and sealed until ready for use.<br>Containers that have been opened must be carefully resealed and kept<br>upright to prevent leakage. Do not store in unlabeled containers. Use<br>appropriate containment to avoid environmental contamination. |

# Section 8. Exposure controls/personal protection

:

#### **Control parameters**

#### **Occupational exposure limits**

| Ingredient name                                       | Exposure limits  |
|---|--|
| Phenol, 4,4'-(1-methylethylidene)bis[2,6-<br>dibromo- | None.  |
| Antimony trioxide                                     | NIOSH REL (1994-06-01)<br>TWA 0.5 mg/m3<br>OSHA PEL 1989 (1989-03-01)<br>TWA 0.5 mg/m3 (as antimony)<br>OSHA PEL (1993-06-30)<br>TWA 0.5 mg/m3 (as antimony) |

| Titanium dioxide                        |   | OSHA PEL 1989 (1989-03-01)  |
|---|---|---|
|   |   | <b>OSHAPEL 1939</b> (1939-03-01)   TWA 10 mg/m3 Form: Total dust <b>OSHAPEL (1993-06-30)</b> TWA 15 mg/m3 Form: Total dust <b>ACGIH TLV (1996-05-18)</b> TWA 10 mg/m3   |
|   |   |   |
| Appropriate engineering controls        | : | Good general ventilation should be sufficient to control worker   |
| Environmental exposure controls         | : | exposure to airborne contaminants.<br>Emissions from ventilation or work process equipment should be<br>checked to ensure they comply with the requirements of<br>environmental protection legislation. In some cases, fume scrubbers,<br>filters or engineering modifications to the process equipment will be<br>necessary to reduce emissions to acceptable levels.  |
| Individual protection measures          |   |   |
| Hygiene measures<br>Eye/face protection | : | Wash hands, forearms and face thoroughly after handling chemical<br>products, before eating, smoking and using the lavatory and at the end<br>of the working period. Appropriate techniques should be used to<br>remove potentially contaminated clothing. Wash contaminated<br>clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location.<br>Safety eyewear complying with an approved standard should be used<br>when a risk assessment indicates this is necessary to avoid exposure to<br>liquid splashes, mists, gases or dusts. If contact is possible, the<br>following protection should be worn, unless the assessment indicates a<br>higher degree of protection: safety glasses with side-shields. |
| Skin protection                         |   |   |
| Hand protection                         | : | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products   |
| Body protection                         | : | if a risk assessment indicates this is necessary.<br>Personal protective equipment for the body should be selected based<br>on the task being performed and the risks involved and should be  |
| Other skin protection                   | : | approved by a specialist before handling this product.<br>Appropriate footwear and any additional skin protection measures<br>should be selected based on the task being performed and the risks<br>involved and should be approved by a specialist before handling this  |
| Respiratory protection                  | : | product.<br>Based on the hazard and potential for exposure, select a respirator that<br>meets the appropriate standard or certification. Respirators must be  |

Soil/water partition coefficient:Not available.(KOC):No known significant effects or critical hazards.

:

# Section 13. Disposal considerations

**Disposal methods** 

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
